

# The Business Device Team Introduces Verizon Internet Gateway

Launches in all VBG channels  
January 5th, 2022

---

# Key Selling Points

---

## Description:

Introducing the Verizon Internet Gateway for Business - Verizon's exclusive 5G-capable, plug-and-play router specifically designed for business customers.

---

## 5G Wireless Connection

Delivers blazing fast Verizon 5G Ultra Wideband speeds to business devices. 5G Ultra Wideband backhaul provides a high-speed, reliable alternative to typical broadband services for businesses of all sizes.

---

## Multiple Connectivity Options

The Verizon Internet Gateway for Business supports the latest Wi-Fi 6 standards to allow businesses to connect up to 256 devices on the Dual-Band Wi-Fi or use a wired connection via Gigabit Ethernet ports.

---

## Plug-and-Play Design

Seamless Plug-and-Play design for fast business deployment and additional flexibility to keep your business up and running in no time.

---

## Device Management Platform

Router features and settings are managed with a convenient, web-based user interface. The Verizon Internet Gateway for Business supports advanced security and enterprise options like IP Passthrough, Firewall, MAC Filtering and Port Forwarding & Redirection.
